- Motion Graphics I
- Lighting & Rendering
- 3D Animation I
- Character Rigging
- 3D Modeling I
- Simulations

Daniel Hand High School, Madison, CT

2010-2014
Overall GPA: 3.92

Work Experience

Department Project – Digital Projections

March 2017-present

3D Artist, Storrs CT

- Modeled interior theater space resembling The Bushnell Center in Hartford, Connecticut for use in a video promoting the implementation of digital projections to a live audience.
- Animated 3D assets within theater model to showcase portability of projectors and the application of an immersive technology to improve live performances.

The Beamer, LLC

May 2016-May 2017

3D Modeler, East Hartford, CT

- Created 3D models, characters, and textures using Cinema 4D for use in a Unity game environment.
- Designed a responsive pipeline to get 3D modeled, lip-synced avatars to respond to user inputs.
- Produced scientifically accurate space-related animations with particle systems within Cinema 4D and Unity.

-ATION Student Agency

August 2016-December 2016

Student Creative, Storrs, CT

- Worked as the lead video editor for media to be displayed on the front page of the UConn Entrepreneurship & Innovation Consortium site.
- Aided in the design process, filming, and editing of a video while responding to the needs of a client.
- Collaborated with other members of a student run media design agency to secure a final product.
